SYMBOLS AND MEANINGS

SDS Plus
Optimized power transmission system designed for rotary hammers and drills in the 2–4 kg class.

SDS Max
High-efficiency power transmission system for heavy-duty rotary hammers in the 2–4 kg class.

Heavy Duty
Designed for intensive applications, ensuring durability during long operating periods and demanding tasks.

Brushless Motor
Brushless motor technology provides longer service life, extended operating time, and higher efficiency.

Lithium-Ion Battery
Advanced lithium-ion battery technology with no memory effect and consistent performance output.

Flexible Power System
Battery platform fully compatible with all tools within the same voltage class, offering flexible capacity options.

Charge Level Indicator
Displays the remaining battery charge status.

Mode Selection
Multiple operating modes for improved efficiency across different applications.

Kick Back Control
Automatic shutdown system that minimizes sudden reactive torque and enhances user safety.

Overload Protection
Automatically shuts down the tool in overload situations to protect internal components.

Soft Grip
Ergonomic soft-grip surfaces for enhanced comfort and reduced user fatigue.

Ergonomic Design
Compact and ergonomic construction for comfortable and controlled operation.

Metal Chuck
Durable metal chuck designed for extended service life.

Vıbratıon Control
Reduced vibration through rubber-mounted components and foam-damped handles.

Right / Left Rotation
Selectable clockwise and counterclockwise rotation for fastening and loosening applications.

Rotation Control (Clutch)
Protective clutch system that disengages in case of overload or tool jamming.

Variable Speed
Variable speed control allows precise adjustment of RPM according to application requirements.

Speed Selection
Pre-set speed settings for optimal performance depending on material and task.

Torque Selection
Multiple torque settings ensure precise control during fastening operations.

1" Outside Square Drive
External 1-inch square drive tool holder.

1/2" Outside Square Drive
External 1/2-inch square drive tool holder.

1/4" Inside Hex Drive
Internal 1/4-inch hexagonal tool holder.

Electronic Cell Protection
Protects battery cells against overheating, overloading, and deep discharge.

Belt Clip
Removable belt clip for convenient and secure tool carrying.

LED Light
Integrated LED light to illuminate the working area.

AUTOLOCK
Automatic locking mechanism prevents the accessory from accidental releas
